

HONEY BEE GAME TOSS AND FRISBEE

Print 5 or 6 of these discs on thick card stock.

Attach to wooden dowels.

Pin into ground at varying distances.

Use light weight balls to throw at the discs.

A hit on a disc win a prize. The further the disc the bigger the prize.

OR

Print 3 discs glue to thick cardboard and cut the circular shapes out.

Mark square areas on the ground (as you would for hop scotch).

Kids each get a chance to throw the three discs at the squares frisbee style.

If the disc lands in a square they can either command the group to do something funny (you can have a hat with funny commands that they can draw from.)

Or you can choose to give prizes for hits on the different squares.
