

TRAVEL BINGO

This grid can be used to create your own Travel Bingo Cards.

How: Print a grid for each player and cut the grid out. Draw or print 16 different pictures about your favourite topic. Photocopy these 16 pictures for the other cards - 1 card per player. Place the 16 pictures on each card in a different sequence. All your playing cards will now have the same 16 pictures but on each card they will appear in a different order.

Mark each square as you see the items pictured. The first person to get 4 in a row up, down or diagonally WINS!
